To Whom This May Concern:

I am recommending Mr. Brian Bingham, Anco Alliance Insurance Services. He has served as our broker for over 10 years. In that time, we have been very pleased with his services and that of his staff. One of the reasons that we switched to him and his agency was that we would have a hands on agent and not just a voice over the telephone.

During his time representing our company, he has helped us to lower our overall cost of risk by acting as a Risk Manager for us. He works with us to run our safety program on a quarterly basis so that we are consistently working to make our company a safe place to work. He provides material for us to use in these meetings by securing it from our insurance vendors or other sources here in the state of Texas. He conducts regular walks through the company looking at our work practices to see if we are using our machinery wisely and effectively while not setting ourselves up for mishaps leading to worker's compensation injuries. Due to this, we have had no lost time accidents in over 3 years. Also, we have eliminated our eye injuries from machine particles altogether.

We work very hard to stay OSHA compliant. With Brian acting as our Risk Manager and with the way he has helped us with the safety meetings and the onsite inspections, we are doing the best job that we can to stay within the OSHA guidelines.

Brian Bingham has provided us with great insurance coverage that is affordable and price competitive while also being highly rated carriers. He has provided the hands on representation that we wanted when we switched to his agency. He has provided guidance and support where necessary to make us a better company while also helping us to keep our premiums lower by making the needed changes to make our company a safe and better work place.

Should you have any questions, please don't hesitate to contact me. I would be very happy to talk with you.

Sincerely,

Patti Bacsik
HR Manager
